Meeting

Revision surgery

Complex Spine Symposium Zurich «Virtual Edition»

Friday, June 18th, 2021

Live broadcast from Balgrist University Hospital, Zurich

Universität
Zürich

swiss olympic MEDICAL
olympic CENTER

Revisions in spine surgery:

What are the main reasons, how to avoid them? What are the best surgical revision techniques?

These are questions that every spine surgeon needs to answer daily. The virtual Complex Spine Symposium 2021 illuminates the answers with key talks given by Swiss University Hospital leaders in spine surgery and other world-renowned experts. Live surgical demonstrations will be broadcasted online and will give the opportunity to take home technical tricks for revision surgery.

The main topics include:

- Pseudarthrosis and screw loosening
- End of construct failures and proximal junctional kyphosis
- Cervical spine revision surgery
- Balance versus alignment of the spine in revision surgery
- Early revisions for infections and CSF leaks
- Adjacent segmented degeneration

Minimally Invasive
Patient-Matched Solutions

BEST HEALTHCARE
NAVIGATION/ROBOTICS SOLUTION
2019

MySpine is a complete system of **3D PRINTED** patient matched guiding tool and pre-operative planning. A unique **PERSONALIZED, LOW RADIATION DOSE, NAVIGATED** solution for a **SAFE** and **ACCURATE** screw positioning in posterior spinal fixation surgery.

International faculty

Lorin Benneker, MD, Professor
Sonnenhof Orthopaedic Centre
Berne,
Senior Consultant Spine Surgery

Dezső J. Jeszenszky, MD, Professor
Schulthess Klinik Zurich
Head of Spine Surgery, Orthopaedics
and Neurosurgery

Michael Betz, MD
Balgrist University Hospital Zurich,
Senior Consultant Spine Surgery

Claudio Lamartina, MD, Professor
I.R.C.C.S. - Istituto Ortopedico Galeazzi,
Orthopaedic Spine Surgeon

Armin Curt, MD, Professor
Balgrist University Hospital Zurich,
Director Spinal Cord Injury Center

Hans-Christoph Pape, MD, Professor
University Hospital Zurich,
Chair of Trauma Surgery

Dennis Dominguez, MD
University Hospital Geneva,
Head of Spine Surgery

Luca Regli, MD, Professor
University Hospital Zurich,
Chair of Neurosurgery

Timo Ecker, MD
CHUV Lausanne University Hospital,
Head of Spine Surgery

Stefan Schären, MD, Professor
University Hospital Basel,
Director Spine Center

Mazda Farshad, MD, Professor
Balgrist University Hospital Zurich,
Chair of Orthopedic Surgery,
Surgeon-in Chief

Jess Snedeker, Professor, PhD
Balgrist University Hospital Zurich,
Head of Biomechanics

Federico P. Girardi, MD, Professor
Hospital for Special Surgery,
New York Professor of Orthopedic,
Surgery, Spinal Surgery

José Spirig, MD
Balgrist University Hospital Zurich,
Consultant Spine Surgery

Jürgen Harms, MD, Professor
Ethianum Heidelberg,
Head of Spine Surgery

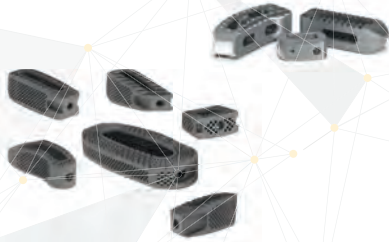

Reto Sutter, MD
Balgrist University Hospital Zurich,
Head of Radiology

Ilker Uckay, MD
Balgrist University Hospital Zurich,
Head of Musculoskeletal Infectiology

Course program – Friday, June 18th, 2021

08.25	<i>Welcome</i>	M. Farshad
--------------	----------------	------------

Pseudarthrosis and screw loosening

08.30	Diagnosis of pseudarthrosis & screw loosening	R. Sutter
--------------	---	-----------

08.50	How to predict / avoid screw loosening?	J. Snedeker
--------------	---	-------------

09.10	What to do with a loose screw?	F. Girardi
--------------	--------------------------------	------------

09.30	Technical tricks in pseudarthrosis revision?	C. Lamartina
--------------	--	--------------

09.50	Lumbopelvin instrumentation in / for revision surgeries	T. Ecker
--------------	---	----------

10.10	<i>Coffee break</i>	
--------------	---------------------	--

10.25	Live demonstration: Navigation-free S2 – Ala screws	M. Farshad
--------------	--	------------

10.40	Live demonstration: PSO – Pedicle Subtraction Osteotomy – made easy	M. Farshad
--------------	--	------------

11.10	Role of BMP / biologics	M. Betz
--------------	-------------------------	---------

11.30	MIS alternative for pseudoarthrosis	D. Dominguez
--------------	-------------------------------------	--------------

Cervical spine

11.50	Pearls in cervical spine revision surgery	D. Jeszenszky
--------------	---	---------------

12.10	<i>Lunch break</i>	
--------------	--------------------	--

 **DePuy Synthes**
THE ORTHOPAEDICS COMPANY OF *Johnson & Johnson*

SYMPHONY

End of construct failures and proximal junctional kyphosis

13.10 Risk factors & how to avoid J. Spirig

13.30 How to treat a problem at the construct end? F. Girardi

The flat spine

13.50 Debate Session: Balance vs. Alignment C. Lamartina vs. J. Harms

Early Revision

14.20 Infections I. Uckay

14.40 CSF leaks and fistula L. Regli

15.00 Treatment of complex fractures of the sacrum and spino-pelvic dissociation injuries L. Benneker

15.20 *Coffee break*

15.35 Revisions in trauma spine surgery H.C. Pape

15.55 Nerve damage - tools for prognosis A. Curt

Adjacent segment degeneration

16.15 How to avoid by planning? M. Farshad

16.35 How to avoid by surgical details? S. Schären

16.55 Q & A session M. Farshad

17.30 *End of symposium*

Pulse

In a single expandable platform, Pulse integrates multiple enabling technologies to improve workflow, reduce variability and increase the reproducibility of surgical outcomes.

Neuromonitoring

Rod bending

Global alignment

Navigation

Radiation reduction and imaging
